

## **869 - Versatile Thermal Imager Overview**

The thermal imager Testo 869 offers professional technology and concentrates on functions which are needed in a contractor's daily job. Testo 869 is an easy-to-operate pro thermal imager, optimized for fast and efficient work.

### **Features**

- Clearly recognizable measurement results thanks to an IR resolution of 160 x 120 pixels
- Easy operation with FixFocus and an intuitive user interface
- High temperature sensitivity (< 120 mK) for identifying the smallest temperature differences
- Wide field of vision (34° lens) means the entire measurement object can be checked at a glance
